Before first use, remove all packaging material and thoroughly clean your Mini Bundt® Maker.

- 1 Carefully unpack your Mini Bundt® Maker. Remove all packaging materials.
- 2 Clean both Cooking Surfaces of the Mini Bundt® Maker with a damp cloth or sponge.
- 3 Wipe dry with a soft cloth. **NEVER IMMERSE THE Mini Bundt® MAKER OR CORD IN WATER OR ANY OTHER LIQUID.**
- 4 Position the Mini Bundt® Maker on a dry, level, heat-resistant surface.
- 5 It is recommended to operate this appliance on a separate outlet and circuit from other appliances to avoid overloading the circuit.

## USING YOUR MINI BUNDT® MAKER

When using your Mini Bundt® Maker, the Cooking Surface and Cover will become hot. To properly open the Mini Bundt® Maker, lift using the Cover Handle from the side.

Never touch the Cooking Surface or Cover while appliance is in use.

DO NOT lift the Cover so that your arm is over the Cooking Surface as it is hot and may cause injury.

Always lift and lower the Cover by the Cover Handle. Lift from the side.

- 1 Place the appliance on a stable and dry surface and lift the Cover to open the Mini Bundt® Maker (photo A). Spray both Cooking Surfaces with a small amount of cooking spray.
- 2 Plug the cord into a power outlet. The Indicator Light will illuminate blue, signaling that the Mini Bundt® Maker is heating up (photo B).

Once the Cooking Surfaces reach the optimal cooking temperature, the Indicator Light will automatically shut off.

**NOTE:** Always preheat the Mini Bundt® Maker before adding batter or the surface will not heat evenly.

Do not leave your Mini Bundt® Maker unattended when plugged in.

- 3 Add the Removal Tool to the base of the Mini Bundt® Maker (photo C).
- 4 Carefully pour batter into the Mini Bundt® Maker, filling so the base is approximately  $\frac{3}{4}$  full (photo D). The Mini Bundt® will rise while cooking, so do not overfill the Mini Bundt® Maker.
- 5 Close the Cover. During the cooking process, the heating element will automatically turn on and off to regulate the temperature and ensure that the Cooking Surface does not get too hot or cold. When this occurs, the Indicator Light turns on and off.

- 6** Actual cooking time will vary depending on ingredients and type of Bundt® being prepared. As a general guideline, most recipes require on average 9-11 minutes of cooking time. It is okay to open the Cover to check for doneness (photo E). Always lift using the Cover Handle.
- 7** You can use a toothpick to check the cake for doneness: if the toothpick comes out clean, your cake is cooked through!

- 8** Once the Bundt® is cooked, first unplug your Mini Bundt® Maker. Allow the appliance to cool for a few minutes, as the cake and Mini Bundt® Maker will be very hot.
- 9** Carefully remove your cake by lifting the Removal Tool (photo F). Be careful, as the sides of the Removal Tool may still be hot.

**NOTE:** Do not use metal utensils to separate cake from the Removal Tool as this will damage the nonstick surface. Instead, use a wood or silicone spatula if needed.

Before cleaning, unplug from outlet and allow to cool.

Clean the interior and exterior surfaces of the Mini Bundt® Maker with a damp cloth or sponge. Wipe dry with a soft cloth. **NEVER IMMERSE THE MINI BUNDT® MAKER OR CORD IN WATER OR ANY OTHER LIQUID.**

To remove fillings or crust baked onto the Cooking Surfaces, pour a small amount of cooking oil onto the hardened food. After 5 minutes, wipe with a paper towel or dry cloth. A clean kitchen brush or even a toothbrush works well to remove stubborn foods.

**NEVER USE ABRASIVE CLEANERS OR SCOURING PADS TO CLEAN THE MINI BUNDT® MAKER, AS THOSE MAY DAMAGE THE SURFACES.**

To store, be sure all parts are clean and dry. Store appliance in its box or in a clean, dry place.

Never store it while it is hot or wet. Never wrap cord tightly around the appliance; keep it loosely coiled.

Always pre-heat the Mini Bundt® Maker before adding the batter, or the cake will not cook evenly. Be careful when adding batter as the Cooking Surface will be hot.

Cakes are very hot when you take them out of the Mini Bundt® Maker. Use caution and allow to cool before serving or enjoying them.

Always fill the Mini Bundt® Maker  $\frac{3}{4}$  full to ensure the best shape.

In a pinch, pre-made cake mixes work in the Mini Bundt® Maker! Simply create batter according to the given recipe and add to the Mini Bundt® Maker.
