</tbody>
</table>

**Special features**

- A strainer fixed to the silicon spout
- The coffee ground won’t clog the spout.
- Able to brew 5 cups at a time

Enjoy!

A mild rich flavor with no bitterness.
How to make

Water dripped coffee

Water Dripper Clear (WDC-6)

1. Set the metal filter and place coffee ground in the powder holding bowl.

2. Slowly drip the water to assure all the coffee is completely wet and place the paper filter on top.

3. Place the pot, powder holding bowl and top bowl on the stand.

4. Add water sufficient for the number of cups into the top bowl.

5. Adjust the dripping rate to about 1 to 1.5 drip per second by turning the faucet.

Water extracted coffee will be ready in 3 to 5 hours.

Enjoy!

A light coffee rich in flavor with no bitterness.

Special features

Ornamental and functional design

The dripping rate allows to adjust coffee taste.

Able to brew 6 cups at a time
How to make

Iced tea

Tea Dripper LARGO Stand Set (TDR-8006T)

1. Put the tea leaves in the Tea Dripper Largo.

2. Boil water and pour gently.
   *Suitable water temperature is 95°C

3. Put the lid on and brew. While brewing, set the ice in the Iced Tea Pitcher.

4. After brewing, turn the switch on and extract all at once.

5. Put the ice (other than the amount specified) in the glass and pour in the iced tea gently.

Enjoy!

Special features

- Heatproof dripper for tea
- Press the switch to extract the tea.
- Easy to keep the ice in when pouring.
