Important Safety Instructions:
• Please read all instructions carefully before assembling.
• For your safety, assembly by two or more adults is strongly recommended.
• Keep instructions for future use.
• Use only vendor supplied hardware to assemble. Using unauthorized hardware could jeopardize the structural integrity of the item.

Pre-assembly:
• Remove all parts and hardware from the box and lay out on a clear carpeted or scratch-free work surface, as this will avoid damaging parts during assembly. The shipping box provides an ideal work surface.
• Do not dispose of any packaging or contents of the shipping carton until assembly is completed to avoid accidentally discarding small parts or hardware.
• Use the parts and hardware lists below to identify and separate each of the pieces included.
• The illustrations provided allow for easier assembly when used in conjunction with the assembly instructions.
• The use of power tools to aid in assembly is not recommended. Power tools can damage hardware and split wood.

Parts Included:
(A) Cabinet case   1x
(B) Acrylic base    1x
(C) Shelf panel     1x

Hardware Included:

<table>
<thead>
<tr>
<th>(D) M8 x 38mm Allen bolt</th>
<th>(E) Allen key</th>
<th>(F) Shelf pin</th>
<th>Galvanized Steel Aircraft Cable 165 x 12 x 4mm</th>
</tr>
</thead>
<tbody>
<tr>
<td><img src="image.png" alt="Allen bolt" /></td>
<td><img src="image.png" alt="Allen key" /></td>
<td><img src="image.png" alt="Shelf pin" /></td>
<td><img src="image.png" alt="Aircraft cable" /></td>
</tr>
<tr>
<td>Bracket 51 x 16 x 16mm</td>
<td>Screws 8 x 40mm</td>
<td>Clevis Pin 10 x 25mm</td>
<td>Hair Pin 31 x 10 x 2mm</td>
</tr>
</tbody>
</table>
Assembly Instruction Steps:

1. Place the cabinet case (A) on top of the acrylic base (B) and align all edges.
2. Insert and tightened each bolt (D) as illustrated below to secure it. Make sure all bolts provided are completely and securely installed.

3. Open all doors and install the shelf panel (C). Make sure brass shelf holders (F) are in place and at the right location to level the shelf adjust shelf holder location if necessary.
4. Adjusting the levelers:
Due to an uneven floor, the furniture may not sit level due causing it to wobble. If the furniture wobbles, determine which corner does not touch the ground correctly. With two people follow these steps:
- Carefully elevate the item slightly to provide access to the levelers attached to the bottom.
- Turn the levelers until adequate contact will be made with the floor. Gently set down the piece and check stability.
- Repeat steps until furniture sits firmly on the ground.

5. Furniture tipping restraint
WARNING: This product is only a deterrent. It is not a substitute for proper adult supervision. Manufacturer assumes no liability for improper installation or excessive loads placed on screws, brackets or straps. Young children may be injured by tipping furniture and the use of a tipping restraint is highly recommended. When properly installed, this restraint will provide protection against tipping of furniture. This tipping restraint MUST be secured to a wall-stud or wall structure of similar strength.
Note:
- For safe mounting it is essential to use the proper hardware for your wall type. The included hardware is for drywall or stud mounting only. For other wall types (e.g., plaster, concrete and brick) please consult your local hardware store for fastener advice.

To install:
a) Connect Galvanized Steel Aircraft Cable to Bracket (fixed at the back of the cabinet) by Clevis Pin and Hair Pin (See Figure 1).
b) LOCATING THE STUDS: Use a stud finder to locate the vertical wooden studs within your wall located behind the final position of the furniture item. Mark the stud locations with a light pencil-mark.
c) MOUNTING THE WALL-SIDE BRACKET: Position the wall-side bracket along the selected stud mark so that it will be adjacent the furniture-side bracket when the furniture item is moved to its final position. The wall-side bracket should be about ONE inch lower than the furniture-side bracket (See Figure 3). Use the two screws to secure the wall-side bracket to the wall. Remember to position the wall-side bracket vertically so that both screws will engage the selected wall stud (See Figure 2).
d) **ATTACHING THE STRAP:** When both brackets are securely attached, move the furniture to its final desired position and thread the strap through the openings of each bracket and also through the ratcheting “buckle”. Tighten the strap until several “clicks” are heard. The furniture item is now securely tethered to the wall.

Note: If you must move the furniture item, you can release the strap by depressing the lever arm located at its buckle and simultaneously withdrawing the strap from the buckle. Make sure to reconnect the strap once the furniture item is returned to its previous position.

**Care Instructions:**

**Q:** What is acrylic made of?

**A:** Acrylic is a transparent thermoplastic known as polydactylies and is derived from natural-gas. It is a composition of Methyl Methacrylate (MMA) and Poly Methyl Methacrylate (PMMA) resin. In short, it’s a petroleum-based product, so petroleum solvents and chemicals should always be avoided to prevent marking the surface.

**Q:** How do I clean acrylic?

**A:** Acrylic care consists of no more than normal wipe-cleaning to keep it looking new. Chemicals should never be used, and care should be taken to avoid scratches. See our Product Care page for complete recommendations.

**Q:** How can I remove scratches from acrylic?

**A:** Removing acrylic scratches (ones that you can see or feel by passing a fingernail over them) can be accomplished by using Novus2 or Novus3 cleaner, depending on the severity of the scratch. These are available on our Product Care page. If your acrylic piece is scored or gouged deeply, contact us for more detailed options that include sanding and refinishing.
**Product Care**

You have just purchased a very fine piece of handmade furniture. With the proper care, it will give you many years of enjoyment. Just as you take pride in caring for fine silver or a beautiful wood surface, you will find it pays to take the simple precautions necessary to preserve the beauty of your purchase. Handcrafted acrylic pieces from Plexi-Craft are works of art; each individual craftsman labors to express their skills in every piece of fine furniture we produce. This gives each piece an appreciating value and character produced only by the unique variations created by crafting with hands. These hand manufacturing characteristics enhance the beauty of the piece and increase the long life durability of the furniture.

**CARE INSTRUCTIONS:**

- Always use a clean cloth made of soft cotton, much like a man’s t-shirt with the stitching removed
- DUSTING - Dust only with a soft damp cloth or chamois, wiping gently.
- WASHING - Wash with a mild soap or detergent and lukewarm water solution. Use as much solution as possible. Rinse well with water. Dry by blotting, again using a soft cotton cloth.
- DO NOT USE: Window cleaning fluids, scouring compounds, gritty cloths, or strong solvents such as alcohol, ammonia, acetone, carbon tetrachloride, etc.
- POLISHING - Use a good polish for acrylics, such as Novus 1, available directly from Plexi-Craft. It provides a high shine and does not show finger marks. Novus 1 is also a static electricity remover. This cuts down on the dust that can be attracted to acrylic.
- SCRATCH REMOVAL - Like a beautiful wood or fine silver, this material can be scratched. But unlike most other materials, a scratch on this surface can be removed. Minor surface scratches can be visibly removed with Novus 2 available here. For heavier scratches use Novus 3 with the Novus 2.
- PROTECTION - Just like on fine wood and metal, the surface of your new acrylic piece must be protected from scratches and harmful agents. Use felt or rubber on the bottom of items that may scratch the surface and use drink coasters to prevent potential clouding by spilled beverages and spirits.

We want you to get years of enjoyment from your new acrylic furniture. If you have any questions, please contact us directly. Novus 1, 2, and 3 are available for purchase from us directly.

Thank you for your purchase
