

Tower

(Packaged in 2 Boxes)

Parts List

Wall Fastener Kit
2 screws
2 washers
2 plastic plugs

Begin with the Uprights

- Place a Brass Fastener on ONE END ONLY of each of the 12 Steel Rods.
CAUTION: Turn Brass Fasteners ONE turn only.
Place two uprights together, smooth sides facing outward.
 - Through the LEFT row of holes, insert one steel rod beginning with (top hole) #1 ... then down to holes 3, 5, 8, 11, and 14.
Or place rods to fit YOUR design.
 - Add a Brass Fastener to other end of Steel Rods (one turn only).
- Repeat above procedure for next set of uprights.*

Add Shelves

Re-tighten hardware periodically.

Complete the Frame

Spread the Uprights apart so that the shelves can be dropped onto the Steel Support Rods.

Starting at the bottom, tap a Shelf into place. Next, add a Shelf on top to complete the frame.

WAIT ... Do Not Tighten Fasteners yet ... Unit should be loose and wobbly until finished.

Secure to Wall

- Tap screw through holes in both rear uprights to **mark** the wall.
- Move unit to make 3/16" holes at **marks**. Tap **plugs** into holes.
- Put screws through washers ... uprights ... and into wall **plugs**.

IMPORTANT ... Secure Shelf Unit to wall with proper hardware for your wall type. When in doubt, consult your local hardware store.
