Steel  
Support Rods

**4**  
Uprights  
Packaged in  
1 Box

**2**  
Tools

**24**  
Brass Fasteners

23T1199

## Begin with the Uprights

- ① — Place a Brass Fastener on **ONE END ONLY** of each of the 12 Steel Rods.  
**CAUTION:** Turn Brass Fasteners **ONE** turn only. Place two uprights together, smooth sides facing outward.
- ② — Through the **LEFT** row of holes, insert one steel rod beginning with (top hole) #1 ... then down to holes 3, 5, 8, 11, and 14.  
*Or place rods to fit YOUR design.*
- ③ — Add a Brass Fastener to other end of Steel Rods (one turn only).

*Repeat above procedure for next set of uprights.*

①

②

③

## Add Shelves

Add remaining shelves. Then insert allen wrenches into Brass Fasteners at both ends of each rod. Turn in opposing directions to tighten.

*Retighten hardware from time to time*

## Complete the Frame

Spread the Uprights apart so that the shelves can be dropped onto the Steel Support Rods.

Starting at the bottom, tap a Shelf into place. Next, add a Shelf on top to complete the frame.

**WAIT ...** Do Not Tighten Fasteners yet ... Unit should be loose and wobbly until finished.

## Secure to Wall

### IMPORTANT ... For Safety

Secure Shelf Unit to wall with proper hardware for your wall type. When in doubt, consult your local hardware store.

**Note:** Put screws through rear upright holes for fastening to wall.
