

Automatic Coffee Machines

Feature Comparison

NEW

Highlights

- Two electronically adjustable ceramic disc grinders ideal for two different roasts and customizing blends
- 6.7" touchscreen Panorama Coffee Panel for a completely new user experience
- Cold Extraction Process for genuine cold brew specialties
- JURA Cockpit with maintenance display status

- Product Recognizing Grinder (P.R.G.) automatically adjusts the fineness of grind for the chosen specialty
- Cold Extraction Process for genuine cold brew specialties
- JURA Cockpit for intuitive operation and optional Artificial Intelligence

- Two P.A.G.3+ conical disc grinders can process two coffee bean varieties independently or simultaneously
- Exclusive Sweet Foam function flavors milk foam with a hint of syrup
- Coffee Eye ensures the cups are always placed under the correct spout
- Panorama Coffee Panel includes Easy Mode with slider controls

- P.A.G.2+ with Aroma Control actively monitors grind consistency for perfect results every time
- Exclusive Sweet Foam function flavors milk foam with a hint of syrup
- Coffee Eye detects cup position and adapts the selection of specialties on the display

- One-Touch Caffè latte
- Intuitive touchscreen display with clear graphics and animations
- Frother with optional on-screen operating instructions
- Demo mode function
